

# FREE BIBLE STUDIES

For Church and  
Group Leaders

Our popular study manuals are now available free!  
The books have been rebuilt into saveable, printable, internet formats so that believers anywhere in the world can obtain them. In the past written gospel materials incurred heavy shipping costs. Now loose-leaf PDF pages have taken their place. Print as many as needed for your gathering, and as often as required. Most lessons fit a single A4 sheet of paper printed back-to-back, and can be kept neatly in a standard folder. There are three series:

**'Rainbow'** is a zero cost, highly adaptable direct witnessing tool, visual aid and scripture reference system for personal evangelists. Use it as a give away or as a presentation visual.

**'River'** is a discipleship series of Bible studies. River reinforces the faith of new and older Christians alike. Use it for individual study, home groups, or as an evangelistic and follow-up tool.

**'Rock'** is a collection of advanced studies developed for small groups and sermon outlines. It has the same imaginative style as 'River', but is for mature groups who wish to take their biblical knowledge to the next level.

Get the **student papers** here:
